RPET

The fabric used in the manufacturing process of these bottles is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos bidones está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.
